

LABOUR'S PLAN TO TRANSFORM BRITAIN

Give Change a Chance

TAX JUSTICE

There will be no tax rise for those earning less than £80,000 - but we will make sure the wealthiest pay their fair share

FIX THE RIGGED ECONOMY

We will end the Tories' failed austerity and use the power of the public purse to invest in a fair & decent society

PEOPLE'S HEALTH SERVICE

Delivering free universal healthcare was the proudest achievement of Labour's history. Increasing investment is our priority

A PAY-RISE FOR HARD WORKERS

We will end the public sector pay cap and replace the minimum wage with a real living wage of £10 per hour. A pay-rise for 6 million people

END THE HOUSING CRISIS

A million new homes in five years - including 1500 for Dundee East - plus security for tenants in the rented sector

SUSTAINABLE ENERGY

Price cap to ensure average energy bills remain below £1000 per year whilst we transition to a fairer system of public ownership

WORKERS' RIGHTS

Equal rights for all from day one, abolish zero-hours contracts and outlaw unpaid internships to build an economy that works for you

FULL EMPLOYMENT

A million good quality jobs to get Britain working again - including 1500 for Dundee East. High-tech, low-carbon jobs fit for the future

THERE IS A SIMPLE CHOICE ON 8 JUNE. VOTE LABOUR.

MORE OPTIMISTIC THAN THE TORIES

MORE AMBITIOUS THAN THE SNP

A BRIGHT & DECENT FUTURE

A RESPONSIBLE (NOT A RECKLESS) BREXIT

Labour accepts the result of last year's EU Referendum - but we do not accept this as an excuse to give Theresa May a free hand. A Labour Government would approach negotiations with an open mind - not a closed fist. Our priority is securing a good deal for Britain which preserves **workers' rights** and protects our **national interest**. Brexit does not have to be a disaster for our country. We would maximise all opportunities to build a better society.

SCOTTISH NATIONAL BANK

Our vision for a better Britain is centered upon investment in our people, our infrastructure and our entrepreneurs. Scotland would benefit from its **fair share of this investment** boost through the Scottish National Bank which would have **£20bn of lending power**. This would be enough to deliver funds for local projects, and help get small businesses off the ground to create work and stimulate the economy.

DIGNITY FOR ALL

Labour champions the working class, which equally includes workers and those who are unable to work too. One of Labour's proudest achievements was creating the welfare state - that social safety net which catches us all when we need it. We will **scrap the Bedroom Tax**. We will **stop DWP sanctions**. And we will **end work capability assessments** and replace it with a new system which treats mental and physical health equally.

BIG BOOST FOR SMALL BUSINESS

Small businesses are the lifeblood of a thriving economy. Entrepreneurs across our country are responsible for creating 60% of private sector jobs. To assist small businesses, we will: set up a new **employment allowance fund** which will support those who need help to pay the £10 living wage; we will reinstate the **small business corporation tax rate** to equalise the burden; and we will set up the **National Investment Bank** to improve funding for start-ups.

An Alternative Government

The only way to oust a Tory Government is to replace it with a Labour Government. Other parties simply want to **oppose** the Tories. Labour wants to **beat** them.

Use your vote to send a message on Thursday 8 June. **Give change a chance**. Vote Labour.

Lesley BRENNAN for Dundee East

I am standing to be your next MP because I strongly believe in the vision Jeremy Corbyn is putting to the country: investment to ensure decent jobs and ending the Tories' failed austerity.

Choose a party that is on your side, not the establishment's. Choose a party that has a positive vision. Choose Labour.
